EDUCATION

University of Moratuwa, Sri Lanka

2024 – Present (Expected 2029)

B.Sc. Engineering (Hons) in Computer Science & Engineering

Faculty of Engineering | Current Year: 1st Year

Maliyadeva College, Kurunegala

Completed 2023

G.C.E. Advanced Level — Physical Science Stream (Combined Mathematics, Physics, Chemistry - achieved 3 A grades.)

PROJECTS

E-Governance System | University of Moratuwa

Developed a unified E-Governance platform for Udubaddawa Pradeshiya Sabha to digitalize public service management and enable real-time municipal operations monitoring. Implemented mobile, web, and desktop applications integrated with IoT-based vehicle tracking and cloud backend services. The system improved service transparency, operational coordination, and citizen engagement.

Technologies: Python, Machine Learning, AWS, Flutter, Firebase, IoT (ESP32, SIM900, NEO GPS)

Reference: [E-Governance System](#)

UrbanCare – Community Infrastructure Issue Management System | University of Moratuwa | University Of Moratuwa

Designed and modeled an urban infrastructure reporting system enabling citizens to report public issues (road damage, waste management, streetlight failures) and authorities to manage resolution through a centralized platform. Applied Object-Oriented Analysis and Design (OOAD) principles to develop scalable system architecture including mobile reporting, web dashboard management, and notification workflows. Improved transparency and communication between citizens and municipal authorities.

Technologies: Java / OOP, UML, OOAD, Android Application Design, Web Dashboard Architecture, Cloud Backend Concepts

LEADERSHIP & Experience

Mathematics Society, University of Moratuwa

- Member (December 2025 – Present)
- **Chairperson, New Year Orientation 2026** (January – February 2026)
 - Co-led event planning coordinated human resources (MC/compering team), managed guest relations and logistics, and hosted a live Linear Algebra-based cryptography mini-game (Hill Cipher) for freshmen.
- **Chairperson, Enigma 2026** ()

TECHNICAL SKILLS

Programming Languages: Python, SQL, PL/SQL, C+, java ,

Cloud & DevOps: Amazon Web Services (AWS), Docker

Machine Learning & Data: Supervised Machine Learning, Regression & Classification, Advanced Learning Algorithms, Unsupervised Learning, Recommenders, Reinforcement Learning

Tools & Platforms: Git, Kaggle, HackerRank

Mathematics: Linear Algebra, Calculus, Discrete Mathematics, Statistics

CERTIFICATIONS

- ▶ HackerRank Python (Gold Badge) — HackerRank
- ▶ Problem Solving — HackerRank
- ▶ Supervised Machine Learning: Regression and Classification — Coursera / DeepLearning.AI
- ▶ Program with PL/SQL — Oracle / Coursera
